Overview

The global e-learning market reached a value of **US\$ 253.3 Billion in 2021**.

E-learning refers to a learning system that utilizes digital resources to deliver educational material and training in text, image, audio, and video format for easy understanding.

Committed To Excellence In Education

"We need to bring learning to students instead of students to learning"

Together, the countries are expected to drive shift from a traditional education approach towards digital and create more opportunities in the digital education sector globally.

ENSURE INCLUSIVE AND EQUITABLE QUALITY EDUCATION AND PROMOTE LIFELONG LEARNING OPPORTUNITIES FOR ALL.

Education liberates the intellect, unlocks the imagination and is fundamental for self-respect. It is the key to prosperity and opens a world of opportunities, making it possible

for each of us to contribute to a progressive, healthy society. Learning benefits every human being and should be available to all.

Vision & Mission

Vision

To be a part of Global Digital Education

Mission

Fostering knowledge exchange, offering platforms of inspiration, and enhancing a worldwide multi-stakeholder network.

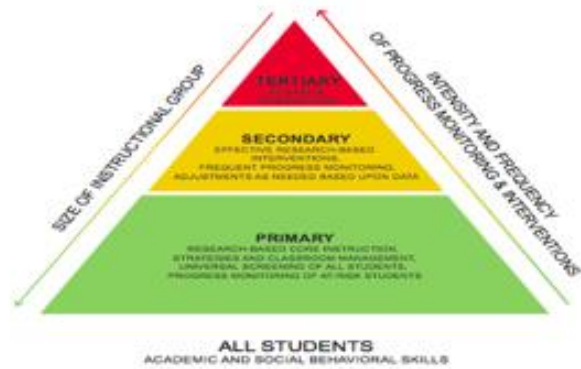

Global visibility of our effective learning programs and activities with governments, institutions and individuals.

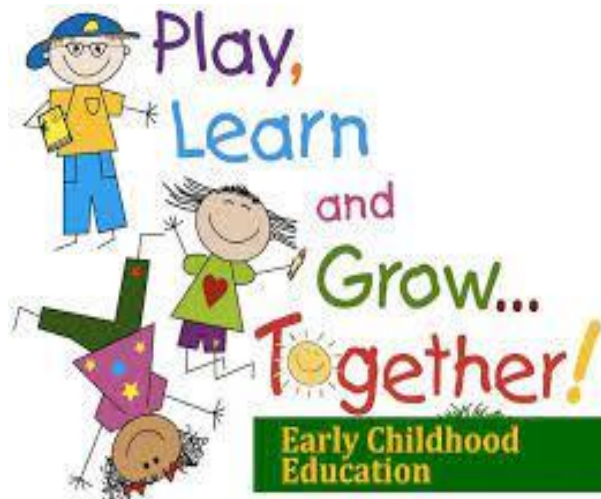

Contribute to the Agenda of UN Sustainable Development Goals (SDGs) by showcasing creative use of digital innovation

Education levels

Early childhood education and care

Early childhood education and care refers to any regulated arrangement that provides education and care for children from birth to compulsory primary school age.

School education

The works with its states school to support the development of quality national school education systems and promote collaboration on issues of shared concern.

Higher education

It cooperates with higher education institutions and States to accelerate the transformation of an open and inclusive higher education system.

Vocational education and training

Vocational education and training prepares people for work and develops citizens skills to remain employable and respond to the needs of the economy.

Adult learning

Adult learning refers to a range of formal and informal learning activities, both general and vocational, undertaken by adults after leaving initial education and training.

Focus Areas:

Quality Education

Improving quality and equity in education and training

All citizens globally have the right to high-quality and inclusive education, training and lifelong learning.

K-12 Edu

It takes a village to help learners be successful. Provide your teachers, parents, school districts, and all actively involved in their journey with our purpose-built tools designed to support the complete needs of your K-12 learner.

Professional Development

Teachers, trainers and school leaders

Revalorizing the teaching professions and to provide all teachers, trainers and school leaders with high-quality initial education and professional development opportunities.

Digital education

Promoting the development of a high-performing digital education ecosystem and is seeking to enhance citizens' competences and skills for the digital transition.

Green education

Encouraging the education and training sector to take action to contribute to the green transition and to strengthen the sustainability competences of all learners.

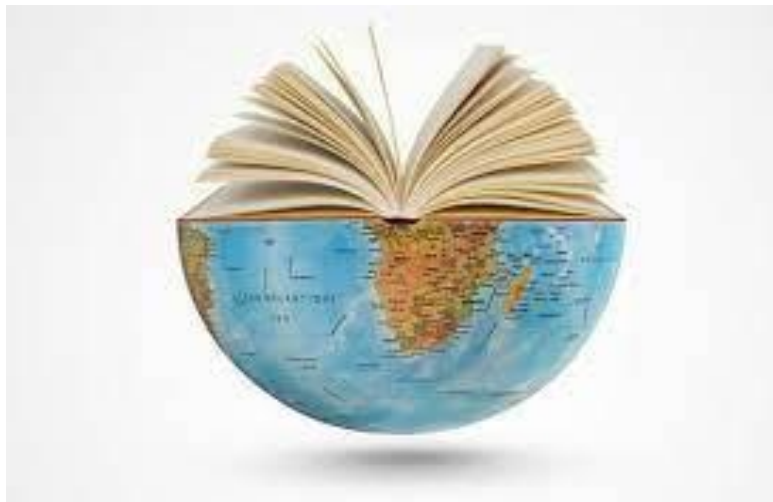

Global Education

The Education Area in the world

Strengthening international cooperation with countries and regions around the world and continue to promote e-learning as a partner for education.

Leadership

Our leaders establish direction, influencing others, and initiating sustainable change through the access of information, and forming relationships to anticipate changes pivotal from school to continuous learning in the future.

Impact Education

Those who get an education have higher incomes, have more opportunities in their lives, and tend to be healthier. Societies benefit as well. Societies with high rates of education completion have lower crime, better overall health, and civic involvement. Lack of access to education is considered the root of poverty.

The MAMS GROUP have started providing “education to all” project in 2008 under its family welfare and education trust. ([Link to trust Education session](#))
